

Quality Express Shipping

A Global Shipping Company

Attn: Shipping Manager

As you may know, no single carrier provides the cheapest rates for every lane of travel, and very few companies have the freight volume to justify deep discounts on multiple carriers. We have accounts with numerous common carriers, and partnership agreements with many brokers, giving us one of the broadest selections in the industry when it comes to LTL shipping.

Our FTL division can provide full truckload pricing within minutes with the help of our in-house rating software. Accounts with several truckload carriers and brokers gives us access to thousands of trucks nationwide, whether it's a van, flatbed, reefer, or even air ride pad wrap white glove service. There's almost no limit to what we can have hauled.

With origins in the tradeshow industry, our Exhibitor Services division has the experience needed for a smooth and problem free tradeshow experience. We provide transportation services for exhibitors to dozens of shows every year, and we keep on growing.

And finally, our international rates are some of the lowest available. From small packages to 40' containers, we get it done professionally and at a price that's agreeable with your bottom line.
